Zephyr

The hand free electric smoker with fast ignition

Hands-free

- Hands-free and fast ignition thanks to the continuous blower function. One match is enough.
- Automatic smoking when tilting forward the smoker.
- Production of 1dm³ of smoke per second.
- Available in amateur 29cm and professional 34cm builds. (7" and 9" cans).
- Weight 860g / 960g lighter than a bellows smoker.

Automatic

- Its 6000mAh battery guarantees several weeks of autonomy.
- Rechargeable, charger USB C included.
- Safety by time delay, and cold smoke.
- Charging indicators and battery visual gauge.
- Anti-burn protection grid and holding hook.

Sustainable

- Eco-friendly design in stainless steel and wood materials resistant to falls and heat.
- Heavy-duty industrial components designed for thousands of hours of operation.
- Customer service and spare parts to fight against planned obsolescence.
- Assembled in France.
- 2 years warranty.
